

Continental Filter

Our range of filters at a glance

Original equipment quality for the spare parts market

With our range of Continental filters, we ensure safe engine operation and clean air in the vehicle interior. This means that a comprehensive selection of oil, gasoline, diesel, air and cabin filters in original equipment quality is available to dealers, workshops and drivers.

Why filters from Continental?

- › Broadly-diversified global player
- › Extensive service and product portfolio
- › Everything from a single source
- › OEM quality with a high level of product competence
- › Provider of innovative technologies

We are constantly developing our product range to ensure the highest coverage for the European car park.

We offer top-class filter systems since we use the latest technologies - and because the engineers and developers leverage their OEM market know-how also for the Independent Aftermarket (IAM). We apply the same standards we use for original equipment to our production ensuring that our spare parts have the same high quality as the original filters. This is valid for our complete range of oil, fuel, air and cabin filters.

As a global player and leading automotive supplier, Continental is broadly diversified and offers dealers, workshops and vehicle drivers a wide range of high-quality, cutting-edge products and services, all from a single source and up-to-date. And thanks to our productive partnership with one of the world's leading suppliers, UFI Filters, we now also offer a full range of filters which we will continue to develop.

The quality of the original

Top-class filter systems

We offer you a full range of premium-class filters, providing reliable protection against dirt, abrasion, ultrafine particles and moisture for injection systems, engines and passengers - all from a single source under the Continental brand. You benefit from an extensive selection that leaves nothing to be desired.

The perfect filter for every use. Premium quality - exactly what you can expect from Continental. And our range is constantly being updated and expanded.

Oil filters

Spin-on filters, immersion filters and environmentally friendly solutions with innovative filter media that ensure the best engine performance and minimum fuel consumption.

Diesel filters

Equipped with state-of-the-art and exclusive filter materials, these filters allow for maximum engine protection and a diesel water separation of more than 95 %.

Gasoline filters

These products filter the impurities from gasoline and meet the requirements of the most modern engines.

Air filters

They filter impurities from the air, protecting the engine from corrosion and preventing clogging of the injectors.

Cabin filters

Pollen and active carbon filters provide the best possible atmosphere and comfort in the vehicle interior, even in adverse weather conditions.
