## HVAC Blower and Fan Systems v 4.0

Gebläse- und Lüftersysteme  
Systèmes de ventilation et de soufflerie  
Sistemas de ventilación y refrigeración  
Impianti HVAC e sistemi di ventilazione  
Системы воздуходувок и вентиляторов

**VDO**

## The Company

Alongside our many specialised solutions for automotive manufacturers, we also offer comprehensive solutions and services for the aftermarket. Spare parts of matching quality, supplied with the experience and proven expertise of an OEM supplier are a particular strength. Our comprehensive range of spare parts of matching quality is readily available and is synonymous with a perfect fit, simple installation and consistently reliable quality, offering significant advantages for distributors, workshops and consumers alike.

## Das Unternehmen

Neben unseren speziellen und vielfältigen Lösungen für Automobilhersteller bieten wir umfassende Lösungen und Serviceaktivitäten für den Aftermarket. Hierzu zählen insbesondere qualitativ gleichwertige Ersatzteile, die wir mit dem Wissen und der langjährigen Kompetenz eines Erstausrüsters anbieten. Das umfassende und zeitnah verfügbare Leistungsspektrum an Ersatzteilen steht für Passgenauigkeit, einen einfachen Einbau sowie gleichbleibende Qualität. So bieten qualitativ gleichwertige Ersatzteile Großhändlern, Werkstätten und Endkunden gleichermaßen deutliche Vorteile.

## L'entreprise

Parallèlement à nos solutions particulières et multiples pour les constructeurs automobile nous offrons des solutions et des activités de service étendues pour l'Aftermarket (marché de pièces de rechange et d'accessoires). En font partie en particulier les pièces détachées qualitativement équivalentes que nous proposons avec le savoir et la compétence de longue durée d'un premier équipementier de série. La gamme étendue de fournitures, disponibles à brève échéance, de pièces détachées représente la précision de l'assemblage, un montage simple ainsi qu'une qualité constante. Ainsi les pièces détachées qualitativement équivalentes offrent des avantages nets de la même manière aux grossistes, aux garages et aux clients finaux.

## Nuestra empresa

Además de las soluciones especiales y variadas que producimos para fabricantes de automóviles, ofrecemos numerosas soluciones y actividades de servicio para el mercado postventa. Entre éstas destacan en particular los recambios de calidad equivalente, que ofrecemos al mercado con los conocimientos y el nivel de competencia, forjados durante muchos años, de un fabricante de primeros equipos. Nuestro amplísimo espectro de recambios, disponibles al poco tiempo de aparecer en cada modelo de automóvil, se caracterizan por su precisión de ajuste, su montaje sencillo y su calidad constante. Por ello, los recambios de calidad equivalente suponen por igual claras ventajas para mayoristas, talleres y clientes finales.

## La società

Oltre a numerose soluzioni specializzate per i produttori di automobili offriamo soluzioni e servizi ad ampio spettro per il settore aftermarket (pezzi di ricambio e accessori). Tra questi rientrano in particolare pezzi di ricambio qualitativamente equivalenti che offriamo con il know-how e l'esperienza pluriennale di un fornitore OEM. La vasta gamma di pezzi di ricambio rapidamente disponibili rappresenta una soluzione ottimale, facilmente installabile e di qualità costante. I pezzi di ricambio qualitativamente equivalenti offrono pertanto ai distributori, alle officine e ai clienti finali notevoli vantaggi.

## Компания

Помимо узкоспециальных и широкопрофильных решений для автопроизводителей мы готовы предложить комплексные решения, включая набор сервисных операций, для послепродажного обслуживания автомобилей. В частности, по качеству равноценные оригинальным запасные части, которые мы, как предприятие-изготовитель, предлагаем партнерам на базе наших знаний и многолетнего опыта. С учетом широкого спектра услуг и возможности поставок в кратчайшие сроки гарантирована точность изготовления изделий, простой монтаж и стабильное качество производства. Поэтому приобретая по качеству равноценные оригинальным запасные части у нас, оптовые покупатели, промышленные предприятия и конечные пользователи в одинаковой степени получают очевидные преимущества.

## A breath of fresh air

Air is one of the prerequisites for life – and essential on any type of car. As well as providing cooling for the engine, air is used to ventilate the passenger compartment, demist the windows and regulate the internal temperature. In order to maintain these crucial functions, VDO HVAC blower and fan systems are designed for the optimum combination of performance and reliability. Since the majority of fan systems and radiators are relatively exposed within the engine compartment, they are particularly prone to failure or faults caused by dirt or debris from the road. Frontal impact can also result in damage to the radiator and fan. Furthermore, as components age they become increasingly susceptible to cracks and corrosion in vulnerable areas such as mounting points and welds. When a failure occurs, it can have a direct impact on the operation of the engine and air-conditioning system, with serious consequences in terms of both safety and comfort. Damage to the

radiator can have a knock-on effect on other components in the cooling and air-conditioning systems. The cumulative damage can be extremely expensive, particularly in the event of complete engine failure.

VDO genuine brand replacement parts are specifically designed to ensure maximum quality, optimum performance and ease of installation. The current range of HVAC blower and fan systems includes the following component groups:

- Cooling Modules
- Cooling Motors
- Blower Modules
- Blower Resistors
- Electric Water Pumps

## Damit die Luft nicht wegbleibt

Ohne Luft geht gar nichts. Schon gar nicht, wenn es um die richtige Belüftung eines Fahrzeugs geht. Auf der einen Seite wird Luft zur Kühlung des Motors benötigt. Auf der anderen Seite ist aber auch für den Innenraum eine geregelte Luft-Versorgung von großer Bedeutung. Zum Atmen oder gegen das Beschlagen von Scheiben. Gebläse- und Lüftersysteme von VDO sorgen für eine kontinuierliche und sichere Versorgung mit Luft. Der exponierte Einbauort von Motorlüftern und -kühlern kann zu umweltbedingten Ausfällen oder Defekten durch Verschmutzung oder Steinschlag führen. Auch ein Unfall mit Frontalaufprall kann leicht einen Defekt des Lüfters verursachen. Darüber hinaus kann es zu altersbedingten Rissen oder Brüchen an Löt- und Befestigungspunkten kommen. Der Ausfall oder die Beschädigung der Lüftung hat direkte Folgen für die Funktion von Motor und Klimaanlage: Fahrsicherheit und -komfort werden massiv beeinträchtigt. Außerdem können über einen Kühlerschaden andere Komponenten der Kühlkreisläufe von Motor und Klimaanlage in Mitleidenschaft gezogen werden. Hohe Reparaturkosten und im schlimmsten Fall ein kapitaler Motorschaden können die Konsequenz sein.

VDO Original-Marken-Ersatzteile ermöglichen einen problemlosen Austausch bei höchster Qualität und geringstem Montageaufwand. Das Lieferprogramm umfasst:

- Lüftermodule
- Lüftermotoren
- Gebläsemodule
- Gebläsewiderstände
- Elektrische Wasserpumpen

## Pour rouler sans mauvaises surprises

Un souffle d'air frais l'air est indispensable à la vie, et essentiel à toutes les voitures. En effet, il permet non seulement de refroidir le moteur, mais également de ventiler le compartiment passagers, dégivrer les fenêtres et réguler la température intérieure. Afin de préserver ces fonctions primordiales, Siemens VDO a conçu des systèmes de ventilation et de soufflerie extrêmement performants et particulièrement fiables. Etant donné que la majeure partie des systèmes de ventilation et de radiateur est relativement exposée dans le compartiment moteur, ces derniers sont particulièrement sujets aux pannes provoquées par la saleté ou les débris de la route. En outre, un impact frontal peut facilement endommager le radiateur et le ventilateur. Par ailleurs, l'usure des composants augmente les risques de craquelures et de corrosion des zones sensibles comme les points de montage et les soudures. En cas de panne, le fonctionnement du moteur et du système de climatisation peut être directement affecté, les conséquences étant sérieuses en termes de sécurité et de confort. Les dommages subis par le radiateur peuvent se répercuter sur d'autres composants des systèmes de refroidissement et de climatisation. L'ensemble des dommages cumulés peut être très coûteux, en particulier en cas de panne complète du moteur.

VDO propose donc des pièces de rechange d'origine spécifiquement conçues pour assurer une qualité maximale, une performance optimale et une installation facile. La gamme actuelle des systèmes de ventilation et de soufflerie est composée des catégories produits suivantes :

- Groupes motor-ventilateur
- Moto-ventilateurs
- Groupes moto-ventilateur de climatisation
- Résistances de moto-ventilateurs de climatisation
- Pompe à eau électrique

## Un sopro de aire fresco

El aire es uno de los elementos más importantes de la vida, y resulta esencial en cualquier tipo de vehículo. Además de refrigerar el motor, el aire se utiliza para ventilar el compartimento de los pasajeros, desempañar las ventanas y regular la temperatura interior. Además de mantener todas las funciones, los sistemas de ventilación y refrigeración de VDO han sido diseñados para combinar rendimiento y fiabilidad de una forma óptima. Dado que la mayoría de los sistemas de ventiladores y radiadores están relativamente expuestos dentro del compartimento del motor, son especialmente susceptibles a fallos o averías provocadas por la suciedad o los residuos procedentes de la carretera. Los impactos frontales también pueden dañarlos, además a medida que los componentes envejecen, se hacen más susceptibles a sufrir grietas y a corroerse en áreas vulnerables, como puntos de montaje y soldaduras. Si se produce un fallo, puede tener un impacto directo en el funcionamiento del motor y en el sistema de aire acondicionado, con graves consecuencias en términos de seguridad y comodidad. Los daños en el radiador pueden tener un efecto en cadena a otros componentes de los sistemas de refrigeración y aire acondicionado. El daño ocasionado puede resultar tremendamente costoso, en particular en caso de una avería total del motor.

Las piezas auténticas de repuesto VDO están específicamente diseñadas para asegurar la máxima calidad, el óptimo rendimiento y la facilidad de instalación. La gama actual de sistemas de ventilación y refrigeración incluye:

- Módulos de ventilador
- Motores de ventilador
- Módulos del soplador
- Resistencias del soplador
- Bomba de agua eléctrica

## Un soffio di aria fresca

L'aria è essenziale per la vita ed è indispensabile anche per le auto. Oltre a garantire il raffreddamento del motore, l'aria viene utilizzata per ventilare l'abitacolo, disappannare i vetri e regolare la temperatura interna. I blower e i ventilatori HVAC di VDO, progettati per garantire una combinazione ottimale tra prestazioni e affidabilità, assicurano queste funzioni essenziali. Rimanendo relativamente esposta all'interno del vano motore, la maggior parte dei radiatori e dei sistemi di ventilazione risulta particolarmente soggetta a danni o guasti provocati dalla sporcizia oppure dai detriti provenienti dalla strada. Anche un urto frontale può provocare danni al radiatore e alla ventola. Invecchiando, i componenti sono inoltre sempre più soggetti a incrinature e corrosione in aree vulnerabili come i punti di montaggio e le saldature. Quando si verifica un guasto, esso può influire direttamente sul funzionamento del motore e dell'impianto di condizionamento, con gravi conseguenze in termini sia di comfort che di sicurezza. Eventuali danni al radiatore possono avere un effetto a catena sugli altri componenti dell'impianto di raffreddamento e di condizionamento dell'aria. Nel complesso, le spese di riparazione possono essere molto elevate, in particolare nel caso in cui il danno al motore sia grave.

Le parti di ricambio originali VDO sono progettate in maniera specifica per garantire la massima qualità, ottime prestazioni e una grande facilità di installazione. L'attuale gamma di sistemi HVAC di ventole e blower include i gruppi di componenti che seguono:

- Gruppi moto-ventilatori
- Moto-ventilatori
- Gruppi moto-ventola di climatizzazione
- Resistenze della ventola
- Pompa d'acqua elettrica

## Чтобы воздух всегда работал на Вас

Без воздуха ничего не получится. Ничего, даже в случае, если речь идет о правильной вентиляции автомобиля. С одной стороны, воздух требуется для охлаждения двигателя. С другой стороны, для контролируемой вентиляции салона воздух тоже имеет большое значение. Для свободного дыхания или во избежание запотевания стекол. Воздуходувки и системы вентиляторов фирмы VDO позаботятся о непрерывной и надежной подаче воздуха. Незащищенное место монтажа вентиляторов и радиаторов двигателей может привести к обусловленным влиянием окружающей среды отказам либо дефектам в результате загрязнения или попадания камней. Лобовое столкновение также может послужить причиной повреждения вентилятора. Кроме того, в результате многолетнего использования в местах спайки и крепления могут возникнуть трещины и разломы. Отказ или повреждение системы вентиляции будут иметь прямые последствия для работы двигателя и кондиционера: Также это отрицательно скажется на безопасности и комфорте движения. Кроме того, повреждения радиатора могут повлечь за собой выход из строя других компонентов контуров охлаждения двигателя и кондиционера. Результатом могут стать высокие затраты на ремонт и в худшем случае серьезное повреждение двигателя.

Оригинальные фирменные запчасти VDO позволяют с легкостью осуществлять замену старых деталей при соблюдении высокого качества и минимальных затратах на монтаж. Программа поставляемой продукции включает в себя:

- Модули вентиляторов
- Двигатели вентиляторов
- Модули наддува
- Сопротивление наддуву
- Электрический водяной насос
