

Fuel Supply Products

High quality fuel supply, regulation, and injection products that keep your profits flowing.

For years, Continental Fuel Supply Products have been known for their robust design and ability to withstand the most extreme operating conditions. Our fuel system products employ state-of-the-art technology and are engineered to meet or exceed OE standards for fit, form, and function. With expanding coverage that now includes the most popular cars and light trucks, as well as off-highway and commercial vehicles and equipment, you can be sure that you're providing the best in the business.

Our complete line of fuel supply products include:

- › Fuel Pumps
- › Electronic Fuel Modules
- › Fuel Level Senders
- › Fuel Injectors
- › Fuel Pressure Regulators

With today's gas prices, drivers cannot afford to operate a vehicle that's not functioning at peak efficiency. This means they require fuel systems that are operating at exact OE specifications. Don't let your customers settle for anything less than the highest quality - Continental Fuel Supply Products.
