

Continental 
The Future in Motion

Bright Lights are coming.

NightViu® Working Lights for Material Handling.

Bright Lights - Big Benefits.

This is how NightViu® Working Lights make your forklifts functionally safe and reliable.

Dust, vibration, moisture, cold, absolute darkness - our engineers have designed and tested NightViu® Working Lights especially for robust work applications.

Do you need an extremely high light output?

NightViu® Working Lights provide 16 lighting options with illumination up to 4,500 lumens. Available in ultra-wide, wide, flood and spot.

Does your application require a high-performance beam pattern?

With a width of 30-100 m and a length of 45-188 m, NightViu® Working Lights illuminate any environment.

Are you looking for the most efficient solution possible?

Thanks to their high efficiency, long service life and low maintenance requirements, NightViu® Working Lights are particularly efficient and economical.

NightViu® - Continental LED Lighting

Forklift, powered by NightViu®.

Optimum light efficiency

- › up to 16 different positions for a forklift
- › with multiple light distributions
- › available in different power levels

Fewer lights for the optimum beam pattern: Our matrix system.

Using the intelligent combination of NightViu® illuminants enables you to save costs and energy.

Example 1:
2 x same beam pattern in different directions

1 x NightViu® wide-beam

Example 2:
4 x / 6 x different beam pattern in different directions

1x NightViu® wide-beam &
1x NightViu® flood-beam

Everything compatible - everything included.

- › Multi-volt 12 V & 24 V wide range of vehicles
- › Fulfill the highest EMC / EMI and CISPR 25 Class 5 requirements
- › Flexible mounting system: heavy duty, standard & direct mount
- › Super seal integrated connector

Do you want to illuminate your forklifts optimally, efficiently and with little maintenance?
