Service Agreements

All Continental garage equipment comes with 3 years manufacturer's warranty as standard. To retain this warranty, a maintenance agreement needs to be in place.

DVSA also require you to have a service agreement in place for the maintenance and calibration of equipment as defined in the MOT Testing Guide appendix 2. Your local Area Sales Manager can discuss options when completing the "MOT Approval Visit Checklist" (VT01-Part D).

We have a range of service agreements available to inspect the safety of your equipment, ensure it is properly calibrated and running at peak performance for multiple years. It is the most economical and convenient way to maintain the accuracy of your equipment year after year.

What's included?

*****UK Mainland only*****

Please speak to one of our team if you need a quotation for islands or export markets.

Service agreements	Essential	Advanced	Comprehensive
Phone Support	✓	✓	✓
